

SAFELY CLEAN MIXERS, INSTRUMENTS, LABWARE, TANKS AND MEMBRANES

Ideal for use in the personal care, cosmetic, pharmaceutical, and nutraceutical industries!

International Products Corporation (IPC) offers a full line of free-rinsing precision cleaners effective in a wide variety of cosmetic cleaning applications. A 2% concentration in water is excellent for removing oils, dyes, fragrances, gels, titanium dioxide, silicon, petrolatum, paraffins, emulsifiers, insoluble salts and oxides. Use to clean hard surfaces including stainless steel, ceramics, plastics and glassware. Our products clean delicate surfaces and rinse completely. In addition, we can provide you with sample validation methods and health and safety data upon request.

MATCH OUR FREE-RINSING CLEANER TO YOUR SOIL

IPC CLEANERS	pH	TYPICAL SOILS REMOVED
Micro-90 [®] Alkaline Cleaning Solution	9.7	Gels, Emulsifiers, Oils, Titanium Dioxides, Dyes, Silicons, Fragrances, Petrolatum, Paraffins
