ZYMIT® LOW-FOAM ENZYME CLEANER DUAL ENZYME SYSTEM CLEANS DIVERSE SOILS

Other optimal cleaning conditions:

Concentration: 1-2%
Zymit in water
pH of solution: 7 - 9

-  Protease enzyme breaks down blood, grass stains, egg, tissue, sebum, sweat, mucous, gelatin, feces, and protein-based soils. Works best between 45 ° and 55 °C.
-  Amylase enzyme breaks down fats, grease, oils, pasta, gravy, chocolate, baby food, and starch-based soils. Works best at 70 °C and above.
